EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The following amendments were made to overcome 35 U.S.C. 112, 2nd paragraph rejections, but were not made to overcome any of the prior art of record. The application has been amended as follows:

Claim 5. An apparatus according to claim 1, wherein the wide opening of the funnel forms substantially all of a [[the]] bottom surface of the upper section when said apparatus is fully assembled.

Claim 20. An apparatus for capturing live insects comprising:

- (a) an upper section having side walls, a top cover, and plural openings in the side walls that are large enough to permit insects to enter;
- (b) an enclosed lower section;
- (c) a funnel between the upper section and the enclosed lower section,

Wherein the funnel has a wide opening adjacent to the upper section and tapers to a narrow opening within the lower section; and

- (d) a light source housed within the upper section,

wherein the openings cover approximately 30-40% of a ~~[[the]]~~ total area that would be provided if the side walls were completely closed.

2. The following is an examiner's statement of reasons for allowance:

In regard to claim 1, the prior art of record does not disclose an apparatus for capturing live insects comprising a removable funnel insert disposed within the funnel, restricting the narrow opening of the funnel to a smaller size.

In regard to claim 2, the prior art of record does not disclose an apparatus for capturing live insects comprising the side walls of the upper section having an inner surface that is reflective.

In regard to claim 7, the prior art of record does not disclose an apparatus for capturing live insects comprising an ultraviolet light source housed within the upper section.

In regard to claim 10, the prior art of record does not disclose an apparatus for capturing live insects comprising the upper section having an outer surface that is substantially entirely dark.

In regard to claim 13, the prior art of record does not disclose an apparatus for capturing live insects comprising a cover that attaches to the enclosed lower section when the enclosed lower section is removed from the upper section.

In regard to claim 20, the prior art of record does not disclose an apparatus for capturing live insects comprising the openings covering approximately 30-40% of a total area that would be provided if the side walls were completely closed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
